handmade  
electronic  
music

## about

KCR is a septet based in Germany formed with mostly classically trained musicians pursuing the goal to perform electronic-like music without any computers or other self playing devices, but being able to perform everything live instead.

The ensemble was formed in Autumn 2016 and released their 4-track EP "Debut" shortly after in a search for opportunities to play live on stage

## music

**Listen: 4-Track EP "Debut"**
